

Dear Healthcare Provider:

We've asked our Insureds to provide this letter to you whenever they receive medical treatment. This letter will explain how to get up-to-date information about your patient's health plan and how to get the fastest and most accurate reimbursement.

- Your patient is insured under the *HealthAccess Plus Fixed Indemnity Plan*, a unique health plan that includes PPO network access, along with Fixed first dollar benefits for covered healthcare services.
- Please review the patient's ID card to find information about the patient's PPO network. We recommend that the patient seek in-network providers when receiving treatment to help lower their costs.
- Before any patient billing. Please file all claims with the Company first at the address on back of the ID card. Since the benefit amount can depend on several factors, such as types of service and negotiated PPO network discounts, we recommend that you submit your claims to the company and wait until your claims have been adjudicated and an Explanation of Benefits (EOB) has been issued before collecting any amount due from the patient.
- If you do collect payment from the patient at the time services are rendered, please be sure to provide any PPO network discounts available and indicate the amount collected on your bill so that any reimbursement can be sent to the proper payee. Please remember, that waiting for the EOB before any further patient collection will help ensure accurate reimbursements.
- For any additional information regarding the patient's benefits or health plan or to verify benefits, please contact Provider Services at the number on the back of the ID card.

Thank you for all you do to care for our customers! If you have any questions or need assistance, please contact us at the toll-free number listed on your patient's ID card.
