

Dear Healthcare Provider:

We've asked our Insureds to provide this letter to you whenever they receive medical treatment. This letter will explain how to get up-to-date information about your patient's health plan and how to get the fastest and most accurate reimbursement.

- **Your patient is insured under the PremierChoice Specified Disease/Illness Plan and the PremierChoice Accidental Bodily Injury Plan**, two health plans that include PPO network access, along with specific first dollar payments for covered healthcare services for expenses incurred up to the listed benefit amounts.
- **Your patient's coverage may include an additional Step-Up rider which allows them to increase their plan benefits – even in the middle of a claim.** Your patient may contact the Company to activate this benefit.
- **Your patient's coverage may also include an additional option which gives them a one-time right to move to an expanded plan for covered expenses should a serious illness or injury occur.** Your patient may contact the Company to exercise this option.
- **Please review the patient's ID card to find information about the member's PPO network.** We recommend that the patient seek network providers when receiving treatment to help lower their costs.
- **Please ensure you are verifying eligibility and benefits with the correct entity. Your patient is insured by the entities listed below.** Please use the phone number and/or website for Providers shown on the back of the ID card to verify benefits and eligibility or for claims questions.
- **When filing a claim, please use the Member Number to file claims. Please file all claims with the Network using the EDI number or the address on the back of the ID card.** Since the amount owed can depend on several factors such as types of service and negotiated PPO network discounts, we recommend that you wait until your claims have been adjudicated and an Explanation of Benefits (EOB) has been issued before collecting the amount due from the patient. *Please note, the network is different than the insurer.*
- If you do collect payment from the patient at the time services are rendered, **please be sure to provide any PPO network discounts available** and indicate the amount collected on your bill so that any reimbursement can be sent to the proper payee. Please remember, that waiting for the EOB before any further patient collection will help ensure accurate reimbursements.

For 24/7 access to member eligibility information, downloadable ID cards, claims filing information and EOBs, please visit our Provider Portal at provider.ushealthgroup.com.

Thank you for all you do to care for our customers! If you have any questions or need assistance, please contact us at the toll-free number listed on your patient's ID card.
